

## 1. Basic data

Customer	<input style="width: 100%;" type="text"/>		
Conveyor: Single conveyor	<input style="width: 50px;" type="text"/>		
Conveyor line	<input style="width: 50px;" type="text"/>	specify your request into the notes.	
Presumed type of the conveyor:			
Chip conveyor (CDT)	<input style="width: 50px;" type="text"/>	Direct conveyor	Quantity <input style="width: 50px;" type="text"/>
Magnetic conveyor (DM)	<input style="width: 50px;" type="text"/>	Steep 1 angled conveyor	Quantity <input style="width: 50px;" type="text"/>
Band conveyor (PD)	<input style="width: 50px;" type="text"/>	Steep 2 angled conveyor	Quantity <input style="width: 50px;" type="text"/>

## 2. Conveyor Characteristics

<b>Conveyor location</b>	<b>Information about the press</b>
Inside of the press machine <input style="width: 50px;" type="text"/>	Type of press: <input style="width: 100%;" type="text"/>
Next to the press machine (from side) <input style="width: 50px;" type="text"/>	Maker/Producer: <input style="width: 100%;" type="text"/>
Behind the machine <input style="width: 50px;" type="text"/>	Year of built: <input style="width: 100%;" type="text"/>
Under the level of the press machine (underground) <input style="width: 50px;" type="text"/>	
<b>Operating hours</b>	<b>Planned operating hours (hours/day)</b>
Single workshift <input style="width: 50px;" type="text"/>	<input style="width: 50px;" type="text"/>
Multipleworkshift <input style="width: 50px;" type="text"/>	

## 3. Conveyor dimensions

### Direct conveyor

Dimension Nr.1 (mm)	<input style="width: 50px;" type="text"/>
Height of the case Nr.2 (v mm)	<input style="width: 50px;" type="text"/>
Width of the case Nr.3 (v mm)	<input style="width: 50px;" type="text"/>
Width of loading section Nr.4 (v mm)	<input style="width: 50px;" type="text"/>

### Steep 1 angled conveyor

Dimension Nr.1 (mm)	<input style="width: 50px;" type="text"/>
Dimension Nr.2 (mm)	<input style="width: 50px;" type="text"/>
Dimension Nr.3 (mm)	<input style="width: 50px;" type="text"/>
Dimension Nr.4 (mm)	<input style="width: 50px;" type="text"/>
Height of the case Nr.5 (v mm)	<input style="width: 50px;" type="text"/>
Width of the case Nr.6 (v mm)	<input style="width: 50px;" type="text"/>
Width of loading section Nr.7 (v mm)	<input style="width: 50px;" type="text"/>

### Steep 1 angled conveyor

Dimension Nr.1 (mm)	<input style="width: 50px;" type="text"/>
Dimension Nr.2 (mm)	<input style="width: 50px;" type="text"/>
Dimension Nr.3 (mm)	<input style="width: 50px;" type="text"/>
Dimension Nr.4 (mm)	<input style="width: 50px;" type="text"/>
Height of the case Nr.5 (v mm)	<input style="width: 50px;" type="text"/>
Width of the case Nr.6 (v mm)	<input style="width: 50px;" type="text"/>
Width of loading section Nr.7 (v mm)	<input style="width: 50px;" type="text"/>

#### 4. Transported material

Scrap - size (dimension)

or

Finished stampings- size (dimension)

min. (mm)	<input type="text"/>
max. (mm)	<input type="text"/>
Lifting capacity (kg)	<input type="text"/>
Temperature (max °C)	<input type="text"/>

Size (mm)	<input type="text"/>
Weight (kg)	<input type="text"/>
Quantity (kg/min, pcs/min)	<input type="text"/>
Temperature (max °C)	<input type="text"/>

Material

Steel:	<input type="text"/>	Stainless steel:	<input type="text"/>	Alloy:	<input type="text"/>
Others:	<input type="text"/>				

#### 5. Additional equipment + additional information

##### 5.1. Elektro

Switchboard:	<input type="text"/>	or	Terminal board:	<input type="text"/>
Other equipment:	Overload switch	<input type="checkbox"/>	<input type="text"/>	
	Safety switch			
	Others			

##### 5.2. Output from the conveyor

Single container:	<input type="text"/>	or	Multiple containers (pcs)	<input type="text"/>	Pcs	<input type="text"/>
Dimensions of container (A x B x H) mm:			<input type="text"/>			

##### 5.3. Lubricant storage tanks

Storage tank	<input type="text"/>	Tank location:	<input type="text"/>		
Pump	<input type="text"/>	Capacity (l/min)	<input type="text"/>	Pressure (bar)	<input type="text"/>

#### 4. Finishing varnish

Paint:	colour RAL Nr.	<input type="text"/>
